

Grimsargh Wetlands – Do You Want its Future Saved?

The planning application that would see the whole of the Wetlands site handed over to Grimsargh Parish has been re-submitted – application number 06/2016/0234.

If approved this would see the site protected in perpetuity and developed further as a nature reserve.

The proposal includes a small development of 12 houses fronting Preston Road – and from the proceeds of that a substantial dowry would be given to the Parish Council to pay towards immediate maintenance work and ongoing upkeep.

You can support this project by writing or emailing Preston City Council Planning Department **by 20th April 16**– details overleaf.

You can forward your comments to Preston City Council in three ways **quoting the application number 06/2016/0234**

- Writing: Planning Department, Preston City Council, Town Hall, Lancaster Road, Preston, PR1 2RL
- By email: devcon@preston.gov.uk
- Online: go to www.preston.gov.uk/planning, click “Search planning applications” and enter the application number into the box “Reference Number”.

Earlier this year over 500 Curlew were counted in one visit to the site. This bird has seen a dramatic decline in numbers across the UK over recent years – all the more reason to protect Grimsargh Wetlands for the future of both residents and wildlife!

You can follow “Grimsargh Wetlands” on Facebook. Also follow the Grimsargh Parish Council Facebook Page to keep up to date on relevant issues around the Village.
