To The Occupier

Date: 25thth January 2016

Re: Installation of New HV Cable – Longridge Rd, Grimsargh, Preston

We wish to inform you that RCD Utility Services Ltd have been recently contracted to install a new HV cable that will serve two new developments in the Grimsargh area.

The works will affect the B6243 Longridge Rd from Bluebell roundabout for approximately 1.2km towards Grimsargh. The works will be complete in two phases;

Phase one will start Saturday 30th January from the Bluebell roundabout towards Grimsargh. Works will take place during weekend and night time periods only to reduce traffic congestion.

Phase one works are programmed to be completed within 4 weeks.

Temporary traffic lights will be in place throughout phase 1 overnight only.

Phase two incorporates the first section of residential properties on Longridge Rd Grimsargh before the cable route turns into private land at the entrance to John Turner and Sons.

This section of work will be completed during school half term period from Sat 13th February to Sunday 21st February 2016.

Temporary traffic lights will be in place throughout phase 2 and will be manually controlled between 07:00 and 19:00 to keep disruption to a minimum.

Access for residents with properties affected by the works will be maintained during these times.

As a company that has completed numerous projects of this nature, we are increasingly aware of the importance of giving consideration to the needs of the local community. Improved relationships with the local community can bring substantial business benefits in the short and long term: reducing time and money spent dealing with complaints and increasing job satisfaction and motivation among site workers, as well as improving the company's reputation.

We would therefore like to assure you that every effort will be made to minimise disruption that these operations may cause and wish to assure you that we will do whatever is reasonably practicable to reduce any inconvenience. In order for us to achieve this goal your cooperation would be very much appreciated whilst we carry out these essential works.

Yours Faithfully
